February 1949

NUMBER 2

FEDERAL BUDGET FOR FISCAL YEAR 1950

The Federal Budget for the fiscal year 1950 estimates total expenditures at 41.9 billion dollars. The high level of expenditures reflects the enlarged responsibilities of the Federal Government both at home and abroad, and particularly its responsibilities for exerting strong, positive efforts to achieve peace in the world. The estimated total for 1950 is 1.7 billion more than estimated expenditures for the fiscal year 1949 and over $4\frac{1}{2}$ times the amount expended in the fiscal year 1940.

National defense and international aid continue to be the major items of expenditure, with the two combined accounting for 21 billion dollars, or one-half of the total. Services and benefits to veterans and interest on the public debt, the two principal aftermath-of-war expenditures, are placed at 11 billion or about one-fourth of total expenditures. All other expenditures, including social services and general Government, amount to 10 billion dollars.

In addition to these budgeted expenditures, the President calls attention to a number of additional programs that are still under consideration and for which Budget appropriations will be sought later in the year. The most important of these is a possible program of direct military assistance to Western Europe.

Budget receipts are expected to increase somewhat in the fiscal year 1950, assuming continuance of approximately current levels

of economic activity and national income. Receipts are estimated at 41 billion dollars, or about 1.4 billion more than the total now estimated for the current fiscal year. Estimates of trust fund receipts are increased substantially, largely because they include amounts from proposed increases in employment taxes to provide for extended and new social insurance programs recommended in the State of the Union and Budget Messages.

Budget expenditures and net receipts, as shown in Budget Message.

Under present tax laws Budget receipts would be 900 million dollars less than expenditures in the fiscal year 1950, as is shown in the chart. This deficit is slightly larger than that estimated for the current fiscal year. Fiscal year 1950, however, would be the first postwar year to involve an increase

FEDERAL BUDGET FOR FISCAL YEAR 1950

in the public debt. Some debt reduction will be possible in the current fiscal year, despite the anticipated deficit; because of a planned reduction in the Treasury's cash balance. For 1950, as is shown in the table, a net increase in total debt of 400 million dollars is anticipated, despite further reduction in the cash balance.

¹ Estimated.

² Excess of investments and other trust fund expenditures over receipts.

³ Less than 50 million dollars.

NOTE.—Actual figures as well as estimates are those presented in the Budget. Receipts and expenditures in all years are on the new Federal financial reporting basis under which refunds of taxes are shown as a deduction from receipts rather than as expenditures, and receipts and expenditures exclude certain interagency transactions. Expenditures include net expenditures of wholly owned Government corporations. Expenditures and surplus for 1948 do not reflect the bookkeeping transfer of 3 billion dollars to the Foreign Economic Cooperation Trust Fund; expenditures from this Fund are shown as Budget expenditures in 1949.

Reduction of marketable debt, as distinguished from total debt, would still be possible in the fiscal year 1950 by virtue of cash made available to the Treasury from the trust funds and from net sales of savings bonds and savings notes. The amount of reduction in marketable debt is expected to be smaller, however, probably about 3 billion dollars, compared with a reduction of 6 billion in 1949.

Failure of the existing revenue structure to provide a surplus in a period of high income has led the President to request an

increase in taxes of 4 billion dollars, in addition to the proposed increases in social security taxes. He suggests that the bulk of this new revenue be obtained by additional taxes on corporate profits, but that consideration be given to the possibility of higher estate taxes and increased personal income taxes in the middle and upper brackets. The recommendation of higher taxes for the coming year reflects the view in the President's Economic Report, as well as in the Budget Message, that inflation is still a threat to the economy.

BUDGET EXPENDITURES

Total Budget expenditures will increase further in the fiscal year ending June 30, 1950, following an increase in the current fiscal year. After declining from the war-time peak of nearly 100 billion dollars in the fiscal year 1945 to less than 34 billion in the fiscal year 1948, Federal Government expenditures in the fiscal year 1949 will amount to a little more than 40 billion and in the fiscal year 1950 to nearly 42 billion. The Budget Message presents the 42 billion dollar total as the minimum requirement for 1950 and emphasizes present uncertainties which make it impractical to predict all possible needs at this time.

Total trust fund expenditures, exclusive of those for investments, are also expected to increase by 3.6 billion dollars in the fiscal year 1950 to a total of 6.8 billion. This increase results from a special nonrecurring payment to veterans and from larger benefit payments under extended and new programs of social insurance recommended by the President.

Military spending is the principal factor behind the increase in total Budget expenditures in the coming fiscal year. Total defense spending at 14.3 billion dollars is

FEDERAL BUDGET FOR FISCAL YEAR 1950

2.5 billion larger than the revised estimate for the current fiscal year. Another area of expansion is the field of social services; total expenditures for social welfare, health, and security, for housing and community facilities, and for education and general research are raised by about 800 million dollars to 3.2 billion dollars. Offsetting these increases are substantial reductions (1.3 billion dollars) in veterans' services and benefits and a moderate decline (500 million dollars) in international aid. All other major categories change little and combined show a small increase.

Estimated Budget expenditures for the fiscal year 1950 compared with earlier years, by broad purposes of expenditures which cut across departmental and agency lines, are shown in the table. Expenditures for all years are exclusive of tax refunds, which were formerly included as expenditures but are now offset against receipts.

¹ Estimated.

² Less than 50 million dollars.

NOTE.—Expenditures in all years are as presented in the Budget and are on the new reporting basis whereby refunds of taxes as well as certain interagency items are excluded. Expenditures include net expenditures of wholly owned Government corporations. Expenditures in fiscal year 1948 do not reflect the book-keeping transfer of 3 billion dollars to the Foreign Economic Cooperation Trust Fund; expenditures from this Fund are included in Budget expenditures for 1949.

National defense and international programs. All major categories of national defense will require additional outlays in the fiscal year 1950. Moreover, the President states that the nation's international responsibilities will probably require further substantial increases in military outlays during succeeding years.

Expenditures for pay and maintenance of an average of 1,616,000 officers and men on active duty in the fiscal year 1950 are estimated at 5 billion dollars or 38 per cent of all defense expenditures. Included in the total is a tentative amount bringing remuneration of military personnel in line with salaries of Federal civilian personnel.

Further provision for military manpower is represented by 600 million dollars for a proposed program of universal military training, which in full operation will cost 2 billion dollars a year, and by 760 million dollars for larger and better-trained civilian reserves.

Expenditures for aircraft and related procurement, ship construction, and military public works are expected to total about 2.4 billion dollars. This represents an increase of about 700 million dollars, largely for aircraft. Stockpiling of critical and strategic materials is estimated to require 500 million dollars in 1950.

Expenditures for international affairs and finance are estimated in the Budget at 6.7 billion dollars for 1950 compared with 7.2 billion now estimated for the fiscal year 1949. This decline is attributed to smaller outlays for economic aid under the European Recovery Program and to decreases in occupation costs. Estimates of international expenditures in the coming year, however, are highly tentative since the President indicates that additional amounts will be requested later to provide military supplies to

foreign countries where such provision is important to national security.

Continuing costs of past wars. Budget expenditures for veterans are expected to decline substantially in the fiscal year 1950, but there will be a large increase in trust fund expenditures for veterans.

Budget expenditures for veterans' benefits and services are estimated at 5.5 billion dollars in 1950 compared with 6.8 billion during the current year. Veterans' education and training benefits, unemployment allowances, and other readjustment benefits will decline as the numbers eligible for benefits are reduced and veterans establish their permanent places in civilian life. Expenditures for pensions and hospital operations will show little change although the long-run trend is upward.

A nonrecurring trust-account payment to veterans, scheduled to take place in the fiscal year 1950, is a dividend of about 2 billion dollars on national service life insurance. This dividend is made possible largely by a more favorable mortality experience than had been allowed for in establishing the level of premiums.

Interest payments on the public debt, most of which was incurred for war purposes, are estimated to increase 125 million dollars in the fiscal year 1950. This small increase results chiefly from interest accruals on savings bonds at higher rates each year and, as trust funds grow, from larger investments in high-coupon special issues. The effect on interest costs of the rise in short-term interest rates that has been in process since mid-1947 will be offset by interest savings resulting from the refunding of higher-coupon maturing issues into short-term issues and from the retirement of marketable debt.

The estimated increase in interest cost of the debt in 1950 is not much larger than

the increase expected in the payment to the Treasury of earnings by the Federal Reserve Banks. This payment is reflected in the Budget in miscellaneous receipts and is estimated at 250 million dollars in 1950, an increase of 110 million from 1949. The President pointed out that most of the interest paid on Government securities held by the Federal Reserve Banks is being returned to the Treasury, as the result of Federal Reserve policy of paying approximately 90 per cent of net Reserve Bank earnings into the Treasury.

All other activities. The social service programs of the Government account for 3.2 billion dollars, or a third of the 10 billion dollars of estimated expenditures for 1950 for all other Government activities. These programs are discussed in a separate section.

The principal functions represented by remaining expenditures are development of natural resources, agricultural programs, transportation and communication, and general Government. Expenditures on natural resources are estimated at a total of 1.9 billion dollars, an increase of 250 million dollars over the current year. These include larger outlays for the development of atomic energy and of power resources and for flood control and reclamation work.

Agricultural programs, which include a wide variety of services and financial aids, are estimated to require 1.7 billion dollars, a little less than in the current year. A decline of over 300 million dollars is estimated in expenditures for price support activities of the Commodity Credit Corporation, and this would more than offset increases for other activities, including additional amounts for rural electrification loans. The Message warns, however, that, if 1949 crops are equal to those of 1948, expenditures of the Commodity Credit Corporation would exceed

considerably the Budget estimates for 1950.

Expenditures for general Government continue at about 1.2 billion dollars. The principal changes in 1950 are a further decline in expenditures incident to the disposal of surplus property and higher payments into the Federal employees' retirement fund as a result of legislation enacted in 1948. Transportation and communication expenditures would decline by about 200 million dollars, largely because of a smaller postal deficit resulting from a proposed increase in rates.

SOCIAL SERVICE PROGRAMS

In his State of the Union Message the President emphasized the need for measures to conserve and develop the human resources of the nation. The Budget for 1950 makes provision for a number of new programs as well as increased expenditures under programs already established.

Existing welfare programs, which consist of grants to the States for public assistance payments, will be increased by 400 million dollars to a total of 2.4 billion dollars. These will provide for payments to the aged and blind and to dependent children, for school lunches, for hospital construction, and for similar welfare programs.

The system of contributory social insurance, which is handled through trust accounts, would be strengthened by several measures. The coverage of old-age insurance would be extended to 25 million additional workers, and the scale of benefits would be raised; the coverage of unemployment insurance would also be extended; disability insurance would be provided; and a comprehensive national health program would be established.

Benefits are to be financed by extending the pay roll taxes to the new participants,

by raising the ceiling on taxable earnings, and by additions to the pay roll tax rates. It is also proposed that a scheduled increase in the tax rate from 1 to 1½ per cent be made effective July 1, 1949, instead of six months later. Altogether, these proposals would increase trust account receipts for 1950 by more than 2 billion dollars and trust account expenditures by 1.7 billion.

Expenditures for education are estimated at 414 million dollars, an increase of over 300 million from the fiscal year 1949. Almost all of the increase would provide proposed grants to States to support a basic minimum program of elementary and secondary school education.

Expenditures for housing and community facilities, estimated at 390 million dollars, are slightly larger than in the preceding year. Substantial reductions in net mortgage purchases by the Reconstruction Finance Corporation would be more than offset by the initial expenditures under proposed new programs, including: (1) a seven-year program of Federal aid to local housing agencies for the construction of low-rent public housing units, (2) a long-term program of Federal grants and loans to cities for slum clearance and urban redevelopment, and (3) programs providing credit assistance for rental and cooperative housing and for farm housing. The annual Federal outlay under these headings is scheduled to rise sharply over the next few years.

BUDGET RECEIPTS

Budget receipts in the fiscal year 1950 are estimated at 41.0 billion dollars compared with a revised estimate of 39.6 billion for the current fiscal year. The estimated level of receipts for 1950 is only moderately below the wartime peak of 45 billion reached in the fiscal year 1945. The effect of tax reduc-

FEDERAL BUDGET FOR FISCAL YEAR 1950

tions in the revenue acts of 1945 and 1948 has been partly offset by the rapid postwar rise in prices, incomes, and profits. The table shows estimated receipts by major sources for the fiscal year 1950 compared with earlier years.

Beginning with the 1950 Budget, tax refunds are deducted from receipts in arriving at net Budget receipts. Refunds, which have ranged between 2 and 3 billion dollars in recent years, were formerly included with expenditures. Data for all years are on the new financial reporting basis.

TREASURY RECEIPTS

Net receipts.....	41.0	39.6	42.2	40.0	5.3

¹ As estimated in the Budget.

² Including receipts from higher taxes recommended in the Budget.

The Budget estimates assume continuance of approximately current levels of economic activity and employment. Income and profits taxes are estimated to total 31.4 billion dollars in the fiscal year 1950, an increase of 1.2 billion over the preceding year, while refunds of taxes, which are largely income taxes, are expected to decrease by about 600 million dollars. Thus, income and profits taxes on a net basis will be about 1.8 billion dollars larger than in the preceding fiscal year. Changes in net receipts from other tax sources are expected to be relatively small. Receipts from miscellaneous

sources are expected to decline by about 500 million dollars, chiefly as a result of smaller sales of surplus property.

Individual income tax receipts are expected to decline from 21 billion dollars in the fiscal year 1948 to 18.5 billion in the fiscal year 1949, but are estimated to increase slightly in the fiscal year 1950 to 19.1 billion. The decline in collections in the fiscal year 1949 reflects the reductions in taxes provided in the Revenue Act of 1948. Withholding of taxes at the reduced rates began in May 1948 and tax credits could be claimed on quarterly returns because of overpayments in earlier months of the year.

Corporate profits continued to rise sharply throughout 1947 and 1948 and taxes on these profits, which are expected to increase from 10.2 billion dollars in the fiscal year 1948 to 11.7 billion in the fiscal year 1949, are estimated to rise somewhat further—to 12.3 billion—in the fiscal year 1950.

With the increasing supply of taxable commodities, receipts from excise taxes on alcoholic beverages, tobacco products, and manufacturers' and retailers' sales of various articles, and from miscellaneous excise taxes have been gradually increasing. The increases are expected to aggregate about 200 million dollars in 1950.

Estate and gift taxes are expected to decrease by nearly 150 million dollars in the fiscal year 1950, following an estimated decrease of 100 million in the present fiscal year. These decreases reflect the impact of the Revenue Act of 1948, which in the next fiscal year will become fully effective for the bulk of returns.

Receipts from higher social security taxes—proposed to finance extended and new programs—are estimated at 5.3 billion dollars in 1950. Larger receipts from these taxes will not affect net Budget receipts because

of a corresponding increase in amounts appropriated directly to social security trust funds. They will affect, however, the amount of cash available to the Treasury.

TAX RECOMMENDATIONS

An increase in tax revenues of 4 billion dollars is recommended by the President in addition to the higher pay roll taxes proposed under the existing and new social insurance programs. Specific recommendations as to taxation are not presented in the Budget Message, but in his Economic Report the President indicated the general areas to which the increased levies might be applied.

"The principal source of additional revenue should be additional taxes upon corporate profits, which can be applied without unduly interfering with prospects for continued business expansion and with assurance that profits, after taxes and dividends, will be sufficient for investments and contingencies.

"Another source of additional revenue should be the tax upon estates and gifts. The already small yield from this tax was reduced by one-third by the Revenue Act of 1948. Careful study should also be directed to the increase of rates of individual income taxes in the upper and middle brackets. Some additional excises may be desirable, but some excise taxes, particularly on oleomargarine, should be repealed."

REDUCTION OF DEBT

The volume of Budget receipts under the present tax laws is not expected to be large enough to meet total expenditures. Revised estimates for the fiscal year 1949 indicate a deficit of 600 million dollars, and in the fiscal year 1950 the deficit will increase to 900 million. As is shown in the table on page

110, a reduction of 700 million dollars in the total public debt is possible in the fiscal year 1949 by drawing down the Treasury's cash balance. Despite further reduction in the cash balance in 1950, an increase of 400 million in total debt is estimated.

Thus the debt reduction program, which began in the early part of 1946, is expected to come to an end. The public debt, which had reached a total of 280 billion dollars in February 1946, is estimated at 252 billion on June 30, 1949, a reduction of 28 billion. The President directs attention to the tax reduction in 1948 as the main reason for the small debt reduction in the fiscal year 1949 and recommends increased taxation in order to permit in 1950 "the minimum reduction consistent with responsible fiscal policy in prosperous times such as these."

The portion of the debt that is marketable has been reduced more than the total debt, as is shown in the chart. Funds for reduction of total debt have come from Treasury surpluses and a drawing down of the Treasury's cash balance from the high level

Actual end-of-month figures through December 1948; estimates for June and December 1949 and June 1950. Estimates of gross debt and special issues for June 1949 and 1950 from Budget Message; other estimates by Federal Reserve. Total debt excludes fully guaranteed debt and includes matured debt and debt bearing no interest, which are not shown separately.

FEDERAL BUDGET FOR FISCAL YEAR 1950

reached in early 1946, at the end of the Victory war loan drive. The Treasury has also had available for retirement of marketable debt the funds received from sale of special issues to Government agencies and trust funds and from net sales to the public of nonmarketable issues, such as savings bonds and special investment issues. For the period from early 1946 to mid-1949, reduction in marketable debt will be about 46 billion dollars, or 18 billion more than the reduction in total debt.

DEBT RETIREMENT AND CREDIT POLICY

In retiring debt, the Treasury and the Federal Reserve by mutual arrangement have followed the policy, especially since mid-1947, of redeeming issues held by Federal Reserve Banks in order to exert some drain on bank deposits and bank reserves. During the fiscal year 1948 about 5 billion dollars of securities held by the Federal Reserve were redeemed for cash, while other investor groups turned in about 3.4 billion of maturing issues for cash redemption. Most of the Federal Reserve retirements were in the period January to June 1948.

The table shows changes in marketable debt and cash retirements of Federal Reserve-held debt, by half-year periods beginning with January 1948, including estimates for the last half of the current fiscal year and the fiscal year 1950. Budget estimates have been supplemented by Federal Reserve estimates of net sales of savings bonds and savings notes and of voluntary redemptions of maturing debt on the part of commercial banks and nonbank investors.

In the first half of the current fiscal year, July-December 1948, marketable public debt was reduced by 2.9 billion dollars, of which 1.5 billion represented retirement of issues held by Federal Reserve Banks. During

Federal Reserve holdings.	4.0	1.5	2.3		.6

¹ Estimated.

² Less than 50 million dollars.

NOTE.—Budget estimates of changes in total debt and in special issues to trust funds for fiscal year 1950 have been distributed by half-years by Federal Reserve. Changes in savings bonds and savings notes for periods beginning 1949 and cash retirements by investor groups for all periods are Federal Reserve estimates. Beginning 1949, estimates of voluntary cash redemptions indicate probable redemptions on the basis of past practices of holders, while figures for Federal Reserve represent funds available for retirement of Federal Reserve-held debt.

the current January-June period the prospects are that retirement of marketable securities will be about 3 billion dollars, of which some 2 billion may be available for retiring Federal Reserve-held securities. This will be much less than the amount retired in the same period last year.

In the six months, July-December 1949, funds available for reduction of marketable debt may be only about one billion dollars. These funds may be fully absorbed by maturing securities that commercial banks and nonbank holders present for cash redemption rather than exchange for refunding issues that may be offered. As a consequence, no funds would be available in this period for retirement of Federal Reserve-held debt. Possible retirements in early 1950 will be much less than in corresponding periods of the two preceding years. If additional taxes are enacted, as recommended by the President, funds available for debt retirement will be increased.

LAW DEPARTMENT

Administrative interpretations of banking laws, new regulations issued by the Board of Governors, and other similar material.

Consumer Instalment Credit

Reduction of Interest Payment

A question was presented under Regulation W as to whether a reduction in the rate of interest on a pre-September 20, 1948, instalment loan would constitute a "revision" of the loan under section 5(a) of the regulation, requiring compliance with that section. Normally the reduction would be effected simply by a letter from the lender to the borrower; and, except for a pro rata scaling down of instalment payments, the obligation would not otherwise be changed or modified.

The Board is of the view that a reduction in interest rate accomplished in the above manner and in good faith would not constitute a "revision" under section 5(a). However, if an instalment loan were one subject to the regulation, a reduction of interest should not result in scheduled payments below the minimum amounts required by sections 4(c), 5(a)(2), and Part 2 of the Supplement to the regulation.

Suction Cleaners and Attachments

In the case of a vacuum or suction cleaner having attachments which are all dependent upon a single power unit for their operation and use, it is the Board's view that such attachments are "accessories" within the meaning of section 8(h)(7), if the vacuum cleaner (or power unit) and dependent attachments are sold at or about the same time. Thus, if the total price, including the cost of the attachments, is \$50 or more, the regulation applies; but if the total price is less than \$50 because the customer does not buy the attachments, then the regulation would not apply.

On the other hand, if an upright brush-type vacuum cleaner, for example, is sold together with an independently powered and operated hand or "junior" vacuum cleaner at a combination price, then the transaction would fall within section 6(h) of the regulation. Of course, if each were sold on the basis of their individual prices, without reduc-

tion, the fact that the two were bought at or about the same time would not bring the transaction under section 6(h), nor would the hand vacuum cleaner ordinarily be considered "an accessory" under section 8(h)(7).

Replacement of Irreparably Damaged Article

A Registrant held a chattel mortgage on an automobile as security for an instalment loan to purchase the automobile. The automobile was irreparably damaged, but insurance covering the automobile was slightly more than sufficient to extinguish the loan balance. However, the Registrant proposed to release the insurance money for the borrower's use in making the required down payment on an automobile to replace the damaged one, and in liquidating about one-third of the old loan balance. The Registrant would then take a chattel mortgage on the replacement automobile as security for an instalment loan covering both the maximum loan value of the new automobile and the remaining indebtedness under the old loan.

The Board is of the opinion that the transaction above proposed would not comply with the regulation. Clearly, the borrower would be receiving more instalment credit in connection with the purchase of the replacement automobile than permitted by section 4 of the regulation. In effect, the proposed transaction would constitute a loan to make a down payment to the extent of the unpaid balance of the old loan.

Automobile Appraisal Guides

The Board has been asked when the provisions of Part 4 of the Supplement to Regulation W will require reference to an automobile appraisal guide in determining the minimum down payment to be obtained on used 1949 model automobiles. Certain of the appraisal guides have not yet included estimated retail prices for any 1949 models. Although certain 1949 car models have been introduced, others are scheduled for later introduction.

The Board has ruled that it will not be necessary

to refer to appraisal guides with respect to used 1949 automobiles until the Board has published in the Federal Register a notice that such reference is required. The Board does not plan to place such a requirement in effect with respect to used 1949 automobiles until all designated appraisal guides publish retail values for such models, and it is also planned that by that time the designated appraisal guides will contain information as to the date on which the requirement comes into effect. The maximum amount of credit that can be extended for used 1949 automobiles until the Board

publishes the notice referred to above will, of course, be two-thirds of the cash price.

In anticipation of the inclusion of 1949 used car prices in certain of the appraisal guides that have particular problems of limited space, the Board has ruled that, effective April 1, 1949, the appraisal guide provisions of Part 4 of the Supplement to Regulation W will no longer apply to used 1938 automobile models. Starting on that date, therefore, the maximum amount of credit which can be extended for used 1938 and older models will be two-thirds of the cash price.

CURRENT EVENTS AND ANNOUNCEMENTS

Resignation of Branch Director

Effective January 31, 1949, the Board of Governors accepted the resignation of Mr. Howard W. Jordan, President, Pennsylvania Rubber Company, Jeannette, Pennsylvania, as a director of the Pittsburgh Branch of the Federal Reserve Bank of Cleveland. Mr. Jordan had served the branch as a director since January 1, 1945.

Appointment of Branch Director

On February 3, 1949, the Board of Governors announced the appointment of Mr. Sidney A. Swensrud, President, Gulf Oil Corporation, Pittsburgh, Pennsylvania, as a director of the Pittsburgh Branch of the Federal Reserve Bank of Cleveland for the unexpired portion of the term ending December 31, 1949. Mr. Swensrud succeeds Mr. Howard W. Jordan, who resigned.

Change in Weekly Reserve Computation Period

Pursuant to action taken by all Federal Reserve Banks under Section 3(a) of Regulation D, with the approval of the Board, deficiencies in reserves of member banks in central reserve and reserve cities will, beginning February 24, 1949, be com-

puted on the basis of average daily net deposit balances covering weekly periods ending on Wednesdays instead of on Thursdays as had previously been the case. This action was taken at the suggestion of both Reserve Banks and member banks to reduce difficulties of member banks in adjusting their reserve positions on the last day of the computation period. Large transfers of funds and fluctuations in bank reserves frequently occur on Thursday as a result of the requirement that Treasury bills be paid for on that day.

Admissions of State Banks to Membership in the Federal Reserve System

The following State banks were admitted to membership in the Federal Reserve System during the period December 16, 1948 to January 15, 1949:

Alabama

Calera—Central State Bank
Childersburg—Childersburg State Bank

Maryland

Cumberland—The Liberty Trust Company

DIRECTORS OF FEDERAL RESERVE BANKS AND BRANCHES

FOLLOWING is a list of the directorates of the Federal Reserve Banks and branches as at present constituted. The list shows, in addition to the name of each director, his business connection, the class of directorship, and the date when his term expires. Each Federal Reserve Bank has nine directors; three Class A and three Class B directors, who are elected by the stockholding member banks, and three Class C directors, who are appointed by the Board of Governors of the Federal Reserve System. Class A directors are representative of the stockholding member banks. Class B directors must be actively engaged in their district in commerce, agriculture, or some industrial pursuit, and may not be officers, directors, or employees of any bank. For the purpose of electing Class A and Class B directors, the member banks of each Federal Reserve district are classified by the Board of Governors of the Federal Reserve System into three groups, each of which consists of banks of similar capitalization, and each group elects one Class A and one Class B director. Class C directors may not be officers, directors, employees, or stockholders of any bank. One Class C director is designated by the Board of Governors as Chairman of the Board of Directors and Federal Reserve Agent and another as Deputy Chairman. Federal Reserve Bank branches have either five or seven directors, of whom a majority are appointed by the board of directors of the parent Federal Reserve Bank and the others are appointed by the Board of Governors of the Federal Reserve System.

Appointed by Board of Governors:

Henry C. Isaacson.	.President, Isaacson Iron Works, Seattle, Wash.....	1949
John M. McGregor.	.Manager, McGregor Land and Livestock Company, Hooper, Wash..	1950

NATIONAL SUMMARY OF BUSINESS CONDITIONS

[Compiled January 25, and released for publication January 27]

Output at factories and mines declined somewhat in December. Department store sales in December and the early part of January were above the reduced November rate, after allowance for seasonal variation. Wholesale prices of farm products and foods showed further marked declines and retail prices of foods and some other goods were also reduced.

INDUSTRIAL PRODUCTION

The Board's seasonally adjusted index of industrial production declined 3 points in December to a rate of 192 per cent of the 1935-39 average, owing primarily to reduced output of nondurable goods. Output for the year 1948 was also 192, as compared with 187 in 1947.

Activity in durable goods industries was maintained in December at about the level of the previous month. Iron and steel production, after allowance for mill closings on Christmas, continued close to the advanced November rate, and in the first three weeks of January rose to new record levels. Activity in most machinery and transportation equipment industries was also maintained at about the November rate, although output in some lines—mainly those producing household equipment—was curtailed further. Assembly of new automobiles in December was below the November rate, mainly because of model change-over activity at the end of the month. Passenger car

production for the year was 3.9 million vehicles as compared with 3.6 in 1947 and 3.8 in 1941; the number of trucks produced in 1948 was at a record total of about 1.4 million. Output in the nonferrous metals, lumber, and stone, clay, and glass groups showed little change in December.

Output of nondurable goods in December, according to preliminary figures, was at a rate about 2 per cent lower than in the preceding month. Cotton consumption declined further in December, and for the entire year 1948 was at the lowest rate since 1940. Paperboard production was curtailed sharply at the end of December, and for the month was 6 per cent below the rate in December 1947. Activity in the petroleum refining industry increased further in December. Output in most other nondurable industries declined somewhat or showed little change.

Minerals production declined 3 per cent in December, mainly because of a considerable reduction in coal output. Production of crude petroleum was maintained at the November rate. In the early part of January coal production continued at a reduced level, about 12 per cent below the rate at the beginning of 1948, and crude petroleum output was curtailed somewhat.

CONSTRUCTION

Value of construction contracts awarded, as reported by the F. W. Dodge Corporation, rose con-

Federal Reserve indexes. Monthly figures, latest shown are for December.

Bureau of Labor Statistics' indexes. Weekly figures, latest shown are for week ending Jan. 25.

NATIONAL SUMMARY OF BUSINESS CONDITIONS

traseasonally in December, reflecting chiefly large awards for public works projects. Awards for most types of private construction were unchanged from November. The number of new nonfarm housing units started, according to the Bureau of Labor Statistics, declined further to 56,000 units as compared with 65,000 in November 1948 and 59,000 in December 1947; the total for the year was 927,000 units, almost 10 per cent more than the 849,000 started in 1947.

DISTRIBUTION

Department store sales increased by more than the usual seasonal amount from November to December, and the Board's adjusted index was estimated to be 307 per cent of the 1935-39 average as compared with 287 in November and an average of 302 for the year. Inventories at department stores were at a high level at the year-end, while outstanding orders were the lowest in six years. In the first half of January value of sales was 7 per cent larger than in the corresponding period last year, reflecting partly the effect of more extensive promotional sales.

Shipments of railroad revenue freight showed the usual large seasonal decline in December and were 8 per cent smaller than in the corresponding period a year ago, mainly because of reduced loadings of coal and manufactured goods. In the early part of January rail shipments of manufactured goods declined somewhat further.

COMMODITY PRICES

The average level of wholesale commodity prices continued to decline in December and the first three weeks of January, reflecting chiefly further

marked decreases in prices of farm products and foods. Prices of alcohol, fuel oil, scrap metals, and some other industrial commodities also declined in this period, while additional advances were announced for metal products, including some new models of automobiles.

In retail markets, prices of foods decreased somewhat further in December and January and special sales of apparel and household goods at reduced prices were widespread. Resale prices of passenger automobiles dropped further.

BANK CREDIT

A substantial post-Christmas return of currency from circulation and an excess of Treasury expenditures over receipts supplied reserve funds to member banks during the first three weeks of January. Banks used these funds to increase their holdings of Government securities.

Federal Reserve System holdings of Government securities were reduced by over one billion dollars in the first three weeks of January. Bond holdings declined further as market demand for Treasury bonds continued active.

Business loans at member banks in leading cities declined substantially over the year-end but increased somewhat in mid-January. Loans to brokers and dealers in securities were reduced considerably. Increases in bank holdings of Government securities reflected primarily large purchases of Treasury bills.

SECURITY MARKETS

Prices of United States Government and high-grade corporate bonds continued to rise slightly in the first three weeks of January.

DEPARTMENT STORE SALES AND STOCKS

Federal Reserve indexes. Monthly figures, latest shown are for December.

Tables on the following pages include the principal available statistics of current significance relating to financial and business developments in the United States. The data relating to the Federal Reserve Banks and the member banks of the Federal Reserve System are derived from regular reports made to the Board; index numbers of production are compiled by the Board on the basis of material collected by other agencies; figures for gold stock, money in circulation, Treasury finance, and operations of Government credit agencies are obtained principally from statements of the Treasury, or of the agencies concerned; data on money and security markets and commodity prices and other series on business activity are obtained largely from other sources. Back figures for banking and monetary tables, together with descriptive text, may be obtained from the Board's publication, *Banking and Monetary Statistics*; back figures for most other tables may be obtained from earlier BULLETINS.

FEDERAL RESERVE BANK DISCOUNT RATES

[In effect January 31. Per cent per annum]

Federal Reserve Bank	Discounts for and advances to member banks				Advances to individuals, partnerships, or corporations other than member banks secured by direct obligations of the U. S. (last par. Sec. 13)	
	Advances secured by Government obligations and discounts of and advances secured by eligible paper (Secs. 13 and 13a) ¹		Other secured advances [Sec. 10(b)]			
	Rate	Effective	Rate	Effective	Rate	Effective
Boston	1½	Aug. 13, 1948	2	Aug. 13, 1948	2½	Jan. 14, 1948
New York	1½	Aug. 13, 1948	2	Aug. 13, 1948	2½	Apr. 6, 1946
Philadelphia	1½	Aug. 23, 1948	2	Aug. 23, 1948	2½	Aug. 23, 1948
Cleveland	1½	Aug. 13, 1948	2	Aug. 13, 1948	2½	Aug. 13, 1948
Richmond	1½	Aug. 13, 1948	2	Aug. 13, 1948	2½	Mar. 16, 1946
Atlanta	1½	Aug. 13, 1948	2	Aug. 13, 1948	2½	Jan. 24, 1948
Chicago	1½	Aug. 13, 1948	2	Aug. 13, 1948	2½	Aug. 13, 1948
St. Louis	1½	Aug. 19, 1948	2	Aug. 19, 1948	2½	Jan. 12, 1948
Minneapolis	1½	Aug. 13, 1948	2	Aug. 13, 1948	2½	Aug. 23, 1948
Kansas City	1½	Aug. 16, 1948	2	Aug. 16, 1948	2½	Jan. 19, 1948
Dallas	1½	Aug. 13, 1948	2	Aug. 13, 1948	2½	Feb. 14, 1948
San Francisco	1½	Aug. 13, 1948	2	Aug. 13, 1948	2½	Apr. 25, 1946

¹ Rates shown also apply to advances secured by obligations of Federal intermediate credit banks maturing within 6 months.

NOTE.—Maximum maturities for discounts and advances to member banks are: 15 days for advances secured by obligations of the Federal Farm Mortgage Corporation or the Home Owners' Loan Corporation guaranteed as to principal and interest by the United States, or by obligations of Federal intermediate credit banks maturing within 6 months; 90 days for other advances and discounts made under Sections 13 and 13a of the Federal Reserve Act (except that discounts of certain bankers' acceptances and of agricultural paper may have maturities not exceeding 6 months and 9 months, respectively); and 4 months for advances under Section 10(b). The maximum maturity for advances to individuals, partnerships, or corporations made under the last paragraph of Section 13 is 90 days. *Back figures.*—See *Banking and Monetary Statistics*, Tables 115-116, pp. 439-443.

FEDERAL RESERVE BANK EFFECTIVE MINIMUM BUYING RATES ON BANKERS' ACCEPTANCES

[Per cent per annum]

Maturity	Rate on Jan. 31	In effect beginning—	Previous rate
1- 90 days.....	1½	¹ Aug. 13, 1948	1½
91-120 days.....	1½	¹ Aug. 13, 1948	1½
121-180 days.....	1½	¹ Aug. 13, 1948	1½

¹ Date on which rate became effective at the Federal Reserve Bank of New York. The same rates generally apply to any purchases made by the other Federal Reserve Banks.

Back figures.—See *Banking and Monetary Statistics*, Table 117, pp. 443-445.

MEMBER BANK RESERVE REQUIREMENTS

[Per cent of deposits]

Period in effect	Net demand deposits ¹			Time deposits (all member banks)
	Central reserve city banks	Reserve city banks	Country banks	
June 21, 1917-Aug. 15, 1936.....	13	10	7	3
Aug. 16, 1936-Feb. 28, 1937.....	19½	15	10½	4½
Mar. 1, 1937-Apr. 30, 1937.....	22¾	17½	12¼	5¼
May 1, 1937-Apr. 15, 1938.....	26	20	14	6
Apr. 16, 1938-Oct. 31, 1941.....	22¾	17½	12	5
Nov. 1, 1941-Aug. 19, 1942.....	26	20	14	6
Aug. 20, 1942-Sept. 13, 1942.....	24	20	14	6
Sept. 14, 1942-Oct. 2, 1942.....	22	20	14	6
Oct. 3, 1942-Feb. 26, 1948.....	20	20	14	6
Feb. 27, 1948-June 10, 1948.....	22	20	14	6
June 11, 1948-Sept. 15, 1948.....	24	20	14	6
Sept. 16-24, 1948 and after ²	26	22	16	7½

¹ Demand deposits subject to reserve requirements, i. e., total demand deposits minus cash items in process of collection and demand balances due from domestic banks (also minus war loan and series E bond accounts during the period Apr. 13, 1943-June 30, 1947, and all U. S. Government demand accounts Apr. 24, 1917-Aug. 23, 1935).

² Change effective Sept. 16 at country banks; Sept. 24 at other classes.

MAXIMUM RATES ON TIME DEPOSITS

Maximum rates that may be paid by member banks as established by the Board of Governors under provisions of Regulation Q.

[Per cent per annum]

	Nov. 1, 1933- Jan. 31, 1935	Feb. 1, 1935- Dec. 31, 1935	Effective Jan. 1, 1936
Savings deposits.....	3	2½	2½
Postal savings deposits.....	3	2½	2½
Other deposits payable:			
In 6 months or more.....	3	2½	2½
In 90 days to 6 months.....	3	2½	2
In less than 90 days.....	3	2½	1

NOTE.—Maximum rates that may be paid by insured nonmember banks as established by the F. D. I. C., effective Feb. 1, 1936, are the same as those in effect for member banks. Under Regulation Q the rate payable by a member bank may not in any event exceed the maximum rate payable by State banks or trust companies on like deposits under the laws of the State in which the member bank is located.

FEDERAL RESERVE BANK RATES ON INDUSTRIAL LOANS AND COMMITMENTS UNDER SECTION 13b OF THE FEDERAL RESERVE ACT

Maturities not exceeding five years

[In effect January 31. Per cent per annum]

Federal Reserve Bank	To industrial or commercial businesses		To financing institutions		
	On loans ¹	On commitments	On discounts or purchases		On commitments
			Portion for which institution is obligated	Re-maining portion	
Boston.....	2½-5	½-1½	(²)	(²)	½-1½
New York.....	2½-5	½-1½	(²)	(²)	½-1½
Philadelphia.....	2½-5	½-1½	(²)	(²)	½-1½
Cleveland.....	2½-5	½-1½	(²)	(²)	½-1½
Richmond.....	2½-5	½-1½	(²)	(²)	½-1½
Atlanta.....	2½-5	½-1½	(²)	(²)	½-1½
Chicago.....	2½-5	½-1½	2½-5	2½-5	½-1½
St. Louis.....	3-5	½-1½	1½-2	(²)	½-1½
Minneapolis.....	2½-5	½-1½	(²)	(²)	½-1½
Kansas City.....	2½-5	½-1½	(²)	(²)	½-1½
Dallas.....	2½-5	½-1½	(²)	(²)	½-1½
San Francisco.....	2½-5	½-1½	(²)	(²)	½-1½

¹ Including loans made in participation with financing institutions.

² Rate charged borrower less commitment rate.

³ Rate charged borrower.

⁴ Rate charged borrower but not to exceed 1 per cent above the discount rate.

⁵ Charge of ¼ per cent is made on undisbursed portion of loan.

Back figures.—See *Banking and Monetary Statistics*, Table 118, pp. 446-447.

MARGIN REQUIREMENTS ¹

[Per cent of market value]

Prescribed in accordance with Securities Exchange Act of 1934	July 5, 1945- Jan. 20, 1946	Jan. 21, 1946- Jan. 31, 1947	Effective Feb. 1, 1947
Regulation T:			
For extensions of credit by brokers and dealers on listed securities.....	75	100	75
For short sales.....	75	100	75
Regulation U:			
For loans by banks on stocks.....	75	100	75

¹ Regulations T and U limit the amount of credit that may be extended on a security by prescribing a maximum loan value, which is a specified percentage of its market value at the time of the extension; the "margin requirements" shown in this table are the difference between the market value (100%) and the maximum loan value.

Back figures.—See *Banking and Monetary Statistics*, Table 145, p. 504, and BULLETIN for March 1945, p. 235.

¹ Includes applications approved conditionally by the Federal Reserve Banks and under consideration by applicant.

² Includes industrial loans past due 3 months or more, which are not included in industrial loans outstanding in weekly statement of condition of Federal Reserve Banks.

NOTE.—The difference between amount of applications approved and the sum of the following four columns represents repayments of advances, and applications for loans and commitments withdrawn or expired.

¹ Averages of daily closing figures for reserves and borrowings and of daily opening figures for other columns, inasmuch as reserves required are based on deposits at opening of business.

² Demand deposits subject to reserve requirements, i. e., gross demand deposits minus cash items reported as in process of collection and demand balances due from domestic banks.

³ Includes some interbank and U. S. Government time deposits; the amounts on call report dates are shown in the *Member Bank Call Report*.

NOTE.—Demand deposits adjusted (demand deposits other than interbank and U. S. Government, less cash items reported as in process of collection) of all member banks estimated at 72,500 million dollars in the first half and 72,750 million in the second half of December.

Dec. 31, 1947	(4)	23,792	1,336	18,682	4,136			28,868

¹ Outside Treasury and Federal Reserve Banks. Includes any paper currency held outside the continental limits of the United States; totals for other end-of-month dates shown in table above, totals by weeks in table on p. 137, and seasonally adjusted figures in table on p. 146.

² Includes \$156,039,431 held as reserve against United States notes and Treasury notes of 1890.

³ To avoid duplication, amount of silver dollars and bullion held as security against silver certificates and Treasury notes of 1890 outstanding is not included in total Treasury currency outstanding.

⁴ Because some of the types of money shown are held as collateral or reserves against other types, a grand total of all types has no special significance and is not shown. See note for explanation of these duplications.

NOTE.—There are maintained in the Treasury—(i) as a reserve for United States notes and Treasury notes of 1890—\$156,039,431 in gold bullion; (ii) as security for Treasury notes of 1890—an equal dollar amount in standard silver dollars (these notes are being canceled and retired on receipt; (iii) as security for outstanding silver certificates—silver in bullion and standard silver dollars of a monetary value equal to the face amount of such silver certificates; and (iv) as security for gold certificates—gold bullion of a value at the legal standard equal to the face amount of such gold certificates. Federal Reserve notes are obligations of the United States and a first lien on all the assets of the issuing Federal Reserve Bank. Federal Reserve notes are secured by the deposit with Federal Reserve agents of a like amount of gold certificates or of gold certificates and such discounted or purchased paper as is eligible under the terms of the Federal Reserve Act, or of direct obligations of the United States. Federal Reserve Banks must maintain a reserve in gold certificates of at least 25 per cent, including the redemption fund, which must be deposited with the Treasurer of the United States, against Federal Reserve notes in actual circulation; gold certificates pledged as collateral may be counted as reserves. "Gold certificates" as herein used includes credits with the Treasurer of the United States payable in gold certificates. Federal Reserve Bank notes and national bank notes are in process of retirement.

MONEY IN CIRCULATION WITH ADJUSTMENT FOR SEASONAL VARIATION
[Outside Treasury and Federal Reserve Banks. In millions of dollars]

December.....	28,423	28,142	-50
1949—January.....	27,850	27,767	-375

¹ For end of year figures, represents change computed on absolute amounts in first column.

NOTE.—For discussion of seasonal adjustment factors and for back figures on comparable basis see September 1943 BULLETIN, pp. 822-826. Because of an apparent change in the seasonal pattern around the year end, adjustment factors have been revised somewhat for dates affected, beginning with December 1942; seasonally adjusted figures for money in circulation, as shown in *Banking and Monetary Statistics*, Table 111, p. 414, and described on p. 405, are based on an older series of adjustment factors.

ANALYSIS OF CHANGES IN GOLD STOCK OF UNITED STATES
[In millions of dollars]

¹ Preliminary.

² Annual figures through 1947 are estimates of the United States Mint. For explanation of monthly figures see table on p. 197.

³ Change includes transfer of 687.5 million dollars gold subscription to International Monetary Fund.

⁴ Not yet available.

⁵ Gold held under earmark at the Federal Reserve Banks for foreign account, including gold held for the account of international institutions, amounted to 3,780.3 million dollars on Jan. 31, 1949. Gold under earmark is not included in the gold stock of the United States.

NOTE.—For back figures, see *Banking and Monetary Statistics*, Table 156, pp. 536-538, and for description of statistics see pp. 522-523 in the same publication.

¹ National series for which bank debit figures are available beginning with 1919.

² Number of centers reduced from 193 to 192 beginning December 1947, when one reporting bank was absorbed by a reporting bank in another city.

³ Weekly reporting member bank series.

⁴ Statistics for banks in leading cities revised beginning July 3, 1946; for description of revision and for back figures see BULLETINS for June 1947 (pp. 692-693) and July 1947 (pp. 878-883) respectively; deposits and debits of the new series for first six months of 1946 are estimated.

NOTE.—Debits to total deposit accounts, except interbank accounts, have been reported for 334 centers from 1942 through November 1947 and for 333 beginning December 1947; the deposits from which rates of turnover have been computed have likewise been reported by most banks and have been estimated for others. Debits to demand deposit accounts, except interbank and U. S. Government, and the deposits from which rates of turnover have been computed have been reported by member banks in leading cities since 1935; yearly turnover rates in this series differ slightly from those shown in *Banking and Monetary Statistics*, Table 55, p. 254, due to differences in method of computation.

* Preliminary.

¹ Includes demand deposits, other than interbank and U. S. Government, less cash items in process of collection.

² Beginning with December 1938, includes United States Treasurer's time deposits, open account.

³ Time deposits adjusted exclude interbank time deposits; United States Treasurer's time deposits, open account; and postal savings redeposited in banks.

⁴ Beginning June 1941, the commercial bank figures exclude and mutual savings bank figures include three member mutual savings banks.

⁵ Prior to June 30, 1947, includes a relatively small amount of demand deposits.

⁶ Includes both amounts redeposited in banks and amounts not so redeposited; excludes amounts at banks in possessions.

NOTE.—Except on call dates, figures are rounded to nearest 100 million dollars. See *Banking and Monetary Statistics*, p. 11, for description and Table 9, pp. 34–35, for back figures.

* Partly estimated.

* "All banks" comprise "all commercial banks" and "all mutual savings banks." "All commercial banks" comprise "all nonmember commercial banks" and "all member banks" with exception of three mutual savings banks that became members in 1941. Stock savings banks and nondeposit trust companies are included with "commercial" banks. Number of banks includes a few noninsured banks for which asset and liability data are not available.

¹ Beginning June 30, 1942, excludes reciprocal balances, which on Dec. 31, 1942, aggregated 513 million dollars at all member banks and 525 million at all insured commercial banks.

ALL BANKS IN THE UNITED STATES, BY CLASSES *—Continued

* June 30, 1947 figures are consistent (except that they exclude possessions) with the revised all bank series announced in November 1947 by the Federal bank supervisory agencies, but are not entirely comparable with prior figures shown above; a net of 115 noninsured nonmember commercial banks with total loans and investments of approximately 110 million dollars was added, and 8 banks with total loans and investments of 34 million were transferred from noninsured mutual savings to nonmember commercial banks.

Back figures.—See *Banking and Monetary Statistics*, Tables 1-7, pp. 16-23; for description, see pp. 5-15 in the same publication. For revisions in series prior to June 30, 1947, see pp. 870-871 of the BULLETIN for July 1947.

* These figures do not include data for banks in possessions of the United States. During 1941 three mutual savings banks became members of the Federal Reserve System; these banks are included in "member banks" but are not included in "all insured commercial banks."

¹ Beginning June 30, 1948, figures for various loan items are shown gross (i. e., before deduction of valuation reserves); they do not add to the total and are not entirely comparable with prior figures. Total loans continue to be shown net.

² During the period Dec. 31, 19

¹ Revised.

² Beginning June 30, 1948, figures for various loan items are shown gross (i. e., before deduction of valuation reserves); they do not add to the total and are not entirely comparable with prior figures. Total loans continue to be shown net.

³ Including guaranteed obligations.

³ Demand deposits other than interbank and U. S. Government, less cash items reported as in process of collection.

⁴ Monthly and weekly totals of debits to demand deposit accounts except interbank and U. S. Government accounts.

Back figures.—For description of revision beginning July 3, 1946, see BULLETIN for June 1947, p. 692, and for back figures on the revised basis, see BULLETIN for July 1947, pp. 878-883; for old series, see *Banking and Monetary Statistics*, pp. 127-227.

¹ Excluding balances with reporting firms (1) of member firms of New York Stock Exchange and other national securities exchanges and (2) of firms' own partners.

² Includes money borrowed from banks and also from other lenders (not including member firms of national securities exchanges).

³ As reported to the New York Stock Exchange. According to these reports, the part of total customers' debit balances represented by balances secured by U. S. Government securities was (in millions of dollars): October, 45; November, 49.

NOTE.—For explanation of these figures see "Statistics on Margin Accounts" in BULLETIN for September 1936. The article describes the method by which the figures are derived and reported, distinguishes the table from a "statement of financial condition," and explains that the last column is not to be taken as representing the actual net capital of the reporting firms.

Back figures.—See *Banking and Monetary Statistics*, Table 143, pp. 501-502, for monthly figures prior to 1942, and Table 144, p. 503, for data in detail at semiannual dates prior to 1942.

¹ Monthly and weekly data are averages of daily figures, except for municipal bonds, which are based on Wednesday figures.

² Standard and Poor's Corporation. ³ U. S. Treasury Department.

⁴ Moody's Investors Service, week ending Friday. Because of limited number of suitable issues, the industrial Aaa and Aa groups have been reduced from 10 to 5 and 6 issues, respectively, and the railroad Aaa and Aa groups from 10 to 5 issues.

Back figures.—See *Banking and Monetary Statistics*, Tables 128-129, pp. 468-474, and *BULLETINS* for May 1945, pp. 483-490, and October 1947, pp. 1251-1253.

¹ Includes publicly offered issues of Federal credit agencies, but excludes direct obligations of U. S. Treasury.

² Includes issues of noncontiguous U. S. Territories and Possessions.

³ Includes revisions not incorporated in monthly data; monthly figures for 1948 will be revised in the *BULLETIN* for March.

⁴ Includes 244 million dollars of issues of the International Bank for Reconstruction and Development, which are not shown separately.

⁵ Excludes the Shell Petroleum Company issue of 250 million dollars, classified as "foreign" by the *Chronicle*.

Source.—For domestic issues, *Commercial and Financial Chronicle*; for foreign issues, U. S. Department of Commerce. Monthly figures subject to revision. Back figures.—See *Banking and Monetary Statistics*, Table 137, p. 487.

¹ Revised.

² Estimates of new issues sold for cash in the United States.

³ Gross proceeds are derived by multiplying principal amounts or number of units by offering price.

⁴ Estimated net proceeds are equal to estimated gross proceeds less cost of flotation, i.e., compensation to underwriters, agents, etc., and expenses.

⁵ Includes repayment of other debt and other purposes.

Source.—Securities and Exchange Commission; for compilation of back figures, see *Banking and Monetary Statistics* (Table 138, p. 491), a publication of the Board of Governors.

¹ "Net profits" and "net income" refer to income after all charges and taxes and before dividends.

² Includes 29 companies engaged in wholesale and retail trade (largely department stores), 13 in the amusement industry, 21 in shipping and transportation other than railroads (largely airlines), and 11 companies furnishing scattered types of service.

³ Net profits figures for the year 1946 include, and those for the fourth quarter exclude, certain large extraordinary year-end profits in the following amounts (in millions of dollars): 629 company series—total, 67; machinery, 49; other durable goods, 18; 152 company series—total, 49.

⁴ Partly estimated.

⁵ Class I line-haul railroads, covering about 95 per cent of all railroad operations.

⁶ Class A and B electric utilities, covering about 95 per cent of all electric power operations. Figures include affiliated nonelectric operations.

⁷ Thirty large companies, covering about 85 per cent of all telephone operations. Series excludes American Telephone and Telegraph Company, the greater part of whose income consists of dividends received on stock holdings in the 30 companies.

⁸ After all charges and taxes except Federal income and excess profits taxes.

Sources.—Interstate Commerce Commission for railroads; Federal Power Commission for electric utilities (quarterly figures on operating revenue and on income before income tax are partly estimated); Federal Communications Commission for telephone companies (except dividends); published reports for industrial companies and for telephone dividends. Figures for the current and preceding year subject to revision. For description of data and back figures, see pp. 214–217 of the BULLETIN for March 1942 and also p. 1126 of the BULLETIN for November 1942 (telephone companies) and p. 908 of the BULLETIN for September 1944 (electric utilities).

^c Corrected.¹ Including holdings by banks in territories and insular possessions, which amounted to 400 million dollars on June 30, 1948.² Includes savings and loan associations, dealers and brokers, and investments of foreign balances and international accounts in this country.

NOTE.—Holdings of Federal Reserve Banks and U. S. Government agencies and trust funds are reported figures; holdings of other investor groups are estimated by the Treasury Department. The derived totals for banks and nonbank investors differ slightly from figures in the Treasury Bulletin because of rounding.

* Figures include only holdings by institutions or agencies from which reports are received. Data for commercial banks, mutual savings banks, insurance companies, and the residual "other" are not entirely comparable from month to month. Figures in column headed "other" include holdings by non-reporting banks and insurance companies as well as by other investors. Estimates of total holdings (including relatively small amounts of nonmarketable issues) by all banks and all insurance companies for certain dates are shown in the table above.

¹ Including stock savings banks.² Including Postal Savings and prewar bonds and a small amount of guaranteed securities, not shown separately below.

¹ Revised.

² Preliminary.

³ The reporting of Treasury receipts and expenditures has been revised to show refunds of taxes as a deduction from total receipts rather than as expenditures, as heretofore.

⁴ Excess of receipts (+) or expenditures (-).

⁵ Excluding items in process of collection beginning with July 1947.

⁶ For description, see Treasury Bulletin for September 1947.

⁷ Including 3 billion dollar transfer to Foreign Economic Cooperation Trust Fund, from which expenditures are made in later months.

⁸ Change in classification. ⁹ Including receipts from surplus property receipts and renegotiation of war contracts, which for fiscal years 1946-1948 amounted to \$501,288,600, and \$1,929 million and \$1,063,279, and \$161 million dollars, respectively.

¹⁰ These are appropriated directly to the Federal old-age and survivors insurance trust fund.

GOVERNMENT CORPORATIONS AND CREDIT AGENCIES *

[Based on compilation by United States Treasury Department. In millions of dollars]

* Includes certain business type activities of the U. S. Government.

¹ Assets are shown on a net basis, i. e., after reserve for losses.

² Totals for each quarter include the United States' investment of 635 million dollars in stock of the International Bank for Reconstruction and Development and its subscriptions of 2,750 million to the International Monetary Fund.

³ Excluding U. S. Maritime Commission. Latest available figures for this agency, which are included in the totals for earlier quarterly dates shown above, are as of Mar. 31, 1947. Inclusion of current data for the Commission will be resumed when available.

⁴ Less than \$500,000. ⁵ Includes Farm Security Administration program, Homes Conversion program, Public War Housing program, and Veteran's Re-use Housing program, which were previously shown under "All other," as well as Public Housing Administration activities under the United States Housing Act, as amended.

⁶ Includes War Damage Corporation, Smaller War Plants Corporation, and Defense Homes Corporation, all of which are in liquidation.

⁷ Certain activities previously included are now shown under "Public Housing Administration"; see footnote 5. Figures for one small agency included herein are for a date other than Sept. 30, 1948.

NOTE.—This table is based on the revised form of the Treasury Statement beginning Sept. 30, 1944, which is on a quarterly basis. Quarterly figures are not comparable with monthly figures previously published. For monthly figures prior to Sept. 30, 1944, see earlier issues of the BULLETIN (see p. 1110 of the November 1944 BULLETIN) and *Banking and Monetary Statistics*, Table 152, p. 517.

p Preliminary.

r Revised.

¹ For indexes by groups or industries, see pp. 166-169. For points in total index, by major groups, see p. 188.

² Based on F. W. Dodge Corporation data; for description, see p. 358 of BULLETIN for July 1931; by groups, see p. 173 of this BULLETIN.

³ The unadjusted indexes of employment and pay rolls, wholesale commodity prices, and consumers' prices are compiled by or based on data of the Bureau of Labor Statistics. Nonagricultural employment covers employees only and excludes personnel in the armed forces.

⁴ For indexes by Federal Reserve districts and other department store data, see pp. 175-178.

⁵ Back figures in BULLETIN.—For industrial production, August 1940, pp. 825-882, September 1941, pp. 933-937, and October 1943, pp. 958-984; for department store sales, June 1944, pp. 549-561.

* Revised.

¹ Includes Federal Force Account Construction.

NOTE.—Estimates include all full- and part-time wage and salary workers in nonagricultural establishments employed during the pay period ending nearest the 15th of the month. Proprietors, self-employed persons, domestic servants, and personnel of the armed forces are excluded. December 1948 figures and 1948 averages are preliminary. Back unadjusted data are available from the Bureau of Labor Statistics; seasonally adjusted figures beginning January 1939 may be obtained from the Division of Research and Statistics.

¹ Includes self-employed, unpaid family, and domestic service workers.

² Annual averages for 1940 include an allowance for January and February inasmuch as the monthly series began in March 1940.

NOTE.—Details do not necessarily add to group totals. Information on the labor force status of the population is obtained through interviews of households on a sample basis. Data relate to the calendar week that contains the eighth day of the month. Back data are available from the Bureau of the Census.

² Preliminary.

¹ Net proceeds to borrowers. ² Mortgages insured under War Housing Title VI through April 1946; figures thereafter represent mainly mortgages insured under the Veterans' Housing Title VI (approved May 22, 1946) but include a few refinanced mortgages originally written under the War Housing Title VI. Beginning with December 1947, figures include mortgages insured in connection with sale of Government owned war housing, and beginning with February 1948 include insured loans to finance the manufacture of housing.

³ Less than \$500,000.

NOTE.—Figures represent gross insurance written during the period and do not take account of principal repayments on previously insured loans. Figures include some reinsured mortgages, which are shown in the month in which they were reported by FHA. Reinsured mortgages on rental and group housing (Title II) are not necessarily shown in the month in which reinsurance took place.

* Preliminary.

* Revised.

¹ Including both domestic and foreign merchandise. Beginning January 1948, recorded exports include shipments under the Army Civilian Supply Program for occupied areas. The average monthly value of such unrecorded shipments in 1947 was 75.9 million dollars (preliminary).

² General imports including merchandise entered for immediate consumption and that entered for storage in bonded warehouses.

Source.—Department of Commerce.

^p Preliminary.

^r Revised.

¹ Figures for sales are the average per trading day, while those for stocks are as of the end of the month or the annual average.

NOTE.—For description and monthly indexes for back years for sales see BULLETIN for June 1944, pp. 542-561, and for stocks see BULLETIN for June 1946, pp. 588-612.

¹ The ratio of stocks to sales is obtained by dividing stocks at the end of the month by sales during the month and hence indicates the number of months' supply on hand at the end of the month in terms of sales for that month.

² The 1941 average of monthly sales for each department is used as a base in computing the sales index for that department. The stocks index is derived by applying to the sales index for each month the corresponding stocks-sales ratio. For description and monthly indexes of sales and stocks by department groups for back years, see pp. 856-858 of BULLETIN for August 1946. The titles of the tables on pp. 857 and 858 were reversed.

³ For movements of total department store sales and stocks see the indexes for the United States on p. 175.

⁴ Index numbers of sales and stocks for this department are not available for publication separately; the department, however, is included in group and total indexes. ⁵ Data not available.

NOTE.—Based on reports from a group of large department stores located in various cities throughout the country. In 1947, sales and stocks at these stores accounted for about 50 per cent of estimated total department store sales and stocks. Not all stores report data for all of the departments shown; consequently, the sample for the individual departments is not so comprehensive as that for the total.

^p Preliminary.

^r Revised.

¹ Includes construction expenditures for crude petroleum and natural gas drilling.

² Consists of sales abroad and domestic sales of surplus consumption goods and materials.

³ Less than 50 million dollars.

⁴ Total wage and salary receipts, as included in "Personal income," is equal to total disbursements less employee contributions to social insurance. Such contributions are not available by industries.

⁵ Includes compensation for injuries, employer contributions to private pension and welfare funds, and other payments.

⁶ Includes business and professional income, farm income, and rental income of unincorporated enterprise; also a noncorporate inventory valuation adjustment.

⁷ Includes government social insurance benefits, direct relief, mustering out pay, veterans' readjustment allowances and other payments, as well as consumer bad debts and other business transfers.

⁸ Includes personal income exclusive of net income of unincorporated farm enterprise, farm wages, agricultural net rents, agricultural net interest, and net dividends paid by agricultural corporations.

NOTE.—Details may not add to totals because of rounding.

SOURCE.—Same as for preceding page.

^p Preliminary.

¹ Includes recent revisions shown on pp. 14–15 of the BULLETIN for January 1949.

² Figures include only personal instalment cash loans and retail automobile direct loans shown on the following page, and a small amount of other retail direct loans not shown separately. Other retail direct loans outstanding at the end of December amounted to 101 million dollars and loans made during December were 9 million.

³ Figures include only personal instalment cash loans, retail automobile direct loans, and other retail direct loans. Direct retail instalment loans are obtained by deducting an estimate of paper purchased from total retail instalment paper.

* Estimated. * Preliminary. * Revised.

¹ Figures for other than Wednesday dates are shown under the Wednesday included in the weekly period.

² For charts on pp. 22, 29, and 34 figures for a more recent period are available in the regular BULLETIN tables that show those series. Because the Chart Book is usually released for duplication some time after the BULLETIN has gone to press, most weekly charts and several monthly charts include figures for a more recent date than are shown in this table.

³ Adjusted for seasonal variation.

⁴ Charts on pp. 27 and 28 of the February issue of the Chart Book reflect the new Federal financial reporting basis, that is, refunds of taxes are shown as a deduction from receipts rather than as expenditures.

⁵ Beginning with July 1948 includes expenditures from Foreign Economic Cooperation Trust Fund.

⁶ Revised to exclude social security employment taxes, which are appropriated directly to the Federal old-age and survivors insurance trust fund.

⁷ Estimates for January-March 1949 quarter are (in billions of dollars): All business, 4.4; manufacturing and mining, railroads and utilities, 3.0; manufacturing and mining, 2.0.

⁸ Beginning June 30, 1948, individual loan items are reported gross, i. e., before deduction of valuation reserves; previously they were reported net of such reserves.

* Monthly issues of this edition of the Chart Book may be obtained at an annual subscription rate of \$9.00; individual copies of monthly issues at \$1.00 each.

					loans ²	8	745	760	768

^p Preliminary. ¹ Annual figures for charts on pp. 9-19, inclusive, are published as they become available.

² Includes revisions shown on pp. 14-15 of the BULLETIN for January 1949.

³ The figures shown here are cumulative totals, not aggregates for the individual components. Aggregates for each component may be derived by subtracting from the figure shown, the total immediately following it.

⁴ Figures for this series are in process of revision and will not be available for several months.

* Copies of the Chart Book may be obtained at a price of 50 cents.

¹ The State member bank figures and the insured mutual savings bank figures both include three member mutual savings banks that became members of the Federal Reserve System during 1941. These banks are not included in the total for "commercial banks" and are included only once in "all reporting banks."

² Federal deposit insurance did not become operative until Jan. 1, 1934.

³ Covers all branches and other additional offices at which deposits are received, checks paid, or money lent. Offices at military reservations (shown separately below) consist mostly of "banking facilities" provided through arrangements made by the Treasury Department with banks designated as depositories and financial agents of the Government. Two of these banking facilities are in each case operated by two national banks, each bank having separate teller windows; each of these facilities is counted as one banking office only.

⁴ Separate figures not available for branches of insured and noninsured banks.

⁵ Exclusive of new banks organized to succeed operating banks.

⁶ Exclusive of liquidations incident to succession, conversion, and absorption of banks.

⁷ Exclusive of conversions of national banks into State bank members, or vice versa. Such changes do not affect Federal Reserve membership; they are included under "conversions."

⁸ Exclusive of insured nonmember banks converted into national banks or admitted to Federal Reserve membership, or vice versa. Such changes do not affect Federal Deposit Insurance Corporation membership; they are included in the appropriate groups under "inter-class bank changes."

Back figures.—See *Banking and Monetary Statistics*, Tables 1 and 14, pp. 16-17 and 52-53, and descriptive text, pp. 13-14.

EARNINGS AND EXPENSES OF FEDERAL RESERVE BANKS DURING 1948

Tables on the following pages include the principal available statistics of current significance relating to gold, international capital transactions of the United States, and financial developments abroad. The data are compiled for the most part from regularly published sources such as central and commercial bank statements and official statistical bulletins, some data are reported to the Board directly. Figures on international capital transactions of the United States are collected by the Federal Reserve Banks from banks, bankers, brokers, and dealers in the United States in accordance with the Treasury Regulation of November 12, 1934. Back figures for all except price tables, together with descriptive text, may be obtained from the Board's publication, *Banking and Monetary Statistics*.

¹ Preliminary.

² Estimated dollar values derived by converting gold at home in amounts up to 1,224.4 million pesos at the rate of 3.0365 pesos per U. S. dollar and all other gold at the rate of 3.5447 pesos per U. S. dollar.

³ Figures as reported by Foreign Exchange Control Board and Minister of Finance.

⁴ Total gold holdings are not available. Beginning April 1946, the series is new and represents gold held as reserve (25 per cent minimum) less gold in foreign currency liabilities.

⁵ Figure for February 1941; beginning Mar. 29, 1941, gold reserves no longer reported separately.

⁶ Figures relate to last official report dates for the respective countries, as follows: Java—Jan. 31, 1942; Yugoslavia—Feb. 28, 1941.

⁷ Beginning December 1943, includes gold holdings of Swiss Government.

⁸ Gold holdings of Bank of England reduced to nominal amount by gold transfers to British Exchange Equalization Account during 1939.

⁹ For list of countries included, see BULLETIN for June 1947, p. 755 footnote 7.

NOTE.—For gold holdings of International Fund and Bank, see p. 204. For back figures, see *Banking and Monetary Statistics*, Tables 156-160, pp. 536-555, and for a description of figures, including details regarding special internal gold transfers affecting the reported data, see pp. 524-535 in the same publication.

¹ Reported at infrequent intervals or on delayed basis: U. S.—Exchange Stabilization Fund (Special A/c No. 1); U. K.—Exchange Equalization Account; France—Exchange Stabilization Fund and Renties Fund; Belgium—Treasury.

² Figure for first of month.

³ Gross official holdings of gold and U. S. dollars as reported by British Government; total British holdings (official and private) of U. S. dollars, as reported by banks in the United States, are shown in table on p. 201.

NOTE.—For details regarding special internal gold transfers affecting the British and French institutions, see p. 204, footnote 4, and p. 205, footnote 6. For available back figures, see *Banking and Monetary Statistics*, p. 526, and BULLETIN for January 1949, p. 86; November 1947, p. 1433; June 1947, p. 755; February 1945, p. 190.

GOLD PRODUCTION

OUTSIDE U. S. S. R.

[In thousands of dollars]

Gold production in U. S. S. R.: No regular Government statistics on gold production in U. S. S. R. are available, but data of percentage changes irregularly given out by officials of the gold mining industry, together with certain direct figures for past years, afford a basis for estimating annual production as follows: 1934, 135 million dollars; 1935, 158 million; 1936, 187 million; 1937, 185 million; 1938, 180 million.

¹ Estimates of United States Bureau of Mines.

² Revised.

³ Beginning 1942, figures reported by American Bureau of Metal Statistics. Beginning 1944, they are for Gold Coast only.

⁴ Reported by American Bureau of Metal Statistics.

⁵ Includes Philippine production received in United States through 1945. Annual figures are estimates of United States Mint. Monthly figures are estimates of American Bureau of Metal Statistics, those for 1947 having been revised by subtracting from each monthly figure \$452,705 so that aggregate for the year is equal to the annual estimate compiled by the United States Mint.

⁶ Gold exports, reported by the Banco Nacional de Nicaragua, which states that they represent approximately 90 per cent of total production.

⁷ Beginning 1948, subject to revision.

⁸ Monthly figures reported by the American Bureau of Metal Statistics.

NOTE.—For explanation of table and sources, see BULLETIN for June 1948, p. 731; February 1939, p. 151; July 1938, p. 621; June 1938, p. 540; April 1933, pp. 233-235; and Banking and Monetary Statistics, p. 524. For annual estimates compiled by the United States Mint for these and other countries in the period 1910-1941, see Banking and Monetary Statistics, pp. 542-543.

^p Preliminary.

¹ This category made up as follows: through Sept. 21, 1938, funds held by foreign central banks at the Federal Reserve Bank of New York and deposit accounts held with the U. S. Treasury; beginning Sept. 28, 1938, also funds held at commercial banks in New York City by central banks maintaining accounts at the Federal Reserve Bank of New York; beginning July 17, 1940, also funds in accounts at the Federal Reserve Bank of New York which had been transferred from central bank to government names; beginning with the new series commencing with the month of July 1942, all funds held with banks and bankers in the United States by foreign central banks and by foreign central governments and their agencies (including official purchasing missions, trade and shipping missions, diplomatic and consular establishments, etc.).

² The weekly series of capital movement statistics reported through July 1, 1942, was replaced by a monthly series commencing with July 1942. Since the old series overlapped the new by one day, the cumulative figures were adjusted to represent the movement through June 30 only. This adjustment, however, is incomplete since it takes into account only certain significant movements known to have occurred on July 1. Subsequent figures are based upon new monthly series. For further explanation, see BULLETIN for January 1943, p. 98.

³ Includes outflow of \$249,300,000 resulting from the sale of debentures in the United States by the International Bank for Reconstruction and Development in July 1947. (Of the total issue of \$250,000,000, \$700,000 was sold directly to Canadian purchasers.)

⁴ Includes inflow of 74.5 million dollars from Dec. 31, 1947, through May 31, 1948, 79.5 million from June 30 through Sept. 30, and 81.6 million from Oct. 31 through Nov. 30, 1948, resulting from net purchases of domestic securities by international institutions.

NOTE.—Statistics reported by banks, bankers, brokers, and dealers. For full description of statistics see *Banking and Monetary Statistics*, pp. 558-560; for back figures through 1941 see Tables 161 and 162, pp. 574-637, in the same publication, and for those subsequent to 1941 see BULLETIN for December 1945, pp. 960-974.

^p Preliminary.

¹ Includes outflow of \$249,300,000 resulting from the sale of debentures in the United States by the International Bank for Reconstruction and Development in July 1947. (Of the total issue of \$250,000,000, \$700,000 was sold directly to Canadian purchasers.)

² Includes inflow of 74.5 million dollars from Dec. 31, 1947, through May 31, 1948, 79.5 million from June 30 through Sept. 30, and 81.6 million from Oct. 31 through Nov. 30, 1948, resulting from net purchases of domestic securities by international institutions.

³ Amounts outstanding Nov. 30 (in millions of dollars): foreign brokerage balances in United States, 72.2; United States brokerage balances abroad, 23.1.

^p Preliminary.

¹ Beginning January 1948, includes Pakistan, Burma, and Ceylon, previously included with India.

Footnotes to table on preceding page.

^p Preliminary.

¹ Country breakdown is for "Official and private."

² Prior to Jan. 3, 1940, the figures under Asia represent Far East only, the remaining Asiatic countries being included under "All other."

³ Report dates for these years are as follows: 1938—Jan. 4, 1939; 1939—Jan. 3, 1940; and 1940—Jan. 1, 1941.

⁴ Official Canadian holdings of U. S. dollars on Dec. 31, 1946, amounted to 686.2 million dollars, according to the annual report of the Foreign Exchange Control Board of Canada for 1946.

⁵ Beginning March 1947, figures include balances in accounts opened by occupation authorities for foreign trade purposes.

NOTE.—Certain of the figures are not strictly comparable with the corresponding figures for preceding months owing to changes in reporting practice of various banks. The cumulative figures in Tables 1, 2, and 3 of "Net Capital Movement to United States" have been adjusted to exclude the unreal movements introduced by these changes. For further explanation see *Banking and Monetary Statistics*, pp. 578-584, and BULLETIN for March 1947, p. 339, and September 1945, pp. 967-970.

^p Preliminary.

¹ Prior to Jan. 3, 1940, the figures under Asia represent Far East only, the remaining Asiatic countries being included under "All other."

NOTE.—The figures in this table are not fully comparable throughout since certain changes or corrections took place in the reporting practice of reporting banks on Aug. 12, 1936, and Oct. 18, 1939. (See *Banking and Monetary Statistics*, Table 161, pp. 589 and 591.) On June 30, 1942, reporting practice was changed from a weekly to a monthly basis. For further information see BULLETIN for September 1945, pp. 971-974.

^p Preliminary.

¹ Less than \$50,000.

² Beginning January 1948, includes Pakistan, Burma, and Ceylon, previously included with India.

[Millions of dollars]

¹ Quarterly statements on a new fiscal year basis.
² Less than \$500,000.
³ As of Nov. 30, 1948, the Fund had sold 631.5 million U. S. dollars; in addition, the Netherlands received 1.5 million pounds sterling in May 1947 and 300 million Belgian francs in May 1948, and Norway received 100 million Belgian francs in June 1948 and an additional 100 million in July 1948.
⁴ Excludes uncalled portions of capital subscriptions, amounting to 6,669 million dollars as of Dec. 31, 1948, of which 2,540 million represents the subscription of the United States.
⁵ Excludes 8 million dollars sold to others under the Bank's guarantee.

CENTRAL BANKS

¹ Through February 1939, valued at legal parity of 85 shillings a fine ounce; thereafter at market price, which fluctuated until Sept. 6, 1939, when it was officially set at 168 shillings per fine ounce; the latter rate remained in effect until June 9, 1945, when it was raised to 172 shillings and three pence.

² Securities and silver coin held as cover for fiduciary issue, the amount of which is also shown by this figure.

³ Notes issued less amounts held in banking department.

⁴ On Jan. 6, 1939, 200 million pounds sterling of gold (at legal parity) transferred from Bank to Exchange Equalization Account; on Mar. 1, 1939, about 5.5 million pounds (at current price) transferred from Exchange Account to Bank; on July 12, 1939, 20 million pounds transferred from Exchange Account to Bank; on Sept. 6, 1939, 279 million pounds transferred from Bank to Exchange Account.

⁵ Fiduciary issue decreased by 50 million pounds each on Jan. 7, Feb. 4, and Mar. 3 and increased by 25 million pounds on Dec. 22, 1948. For details on previous changes in the fiduciary issue see BULLETIN for February 1948, p. 254.

NOTE.—For bank figures on Bank of England, see *Banking and Monetary Statistics*, Table 164, pp. 638–640; for description of statistics, see pp. 560–561 in same publication.

¹ Securities maturing in two years or less.

² Includes notes held by the chartered banks, which constitute an important part of their reserves.

³ Beginning November 1944, includes a certain amount of sterling and United States dollars.

⁴ On May 1, 1940, gold transferred to Foreign Exchange Control Board in return for short-term Government securities (see BULLETIN for July 1940, pp. 677-678).

⁵ Less than \$50,000.

⁶ Gold revalued on Dec. 26, 1945, on basis of 134,027.90 francs per fine kilogram. In March 1948 the amount of gold pledged as collateral against a loan was increased from 10,052 to 12,408 million francs. For details on previous devaluations and other changes in the gold holdings of the Bank of France, see BULLETIN for May 1948, p. 601; May 1940, pp. 406-407; January 1939, p. 29; September 1937, p. 853; and November 1936, pp. 878-880.

⁷ For explanation of this item, see BULLETIN for July 1940, p. 732.

⁸ By a series of Conventions between the Bank of France and the Treasury, dated from Aug. 25, 1940, through July 20, 1944, advances of 441,000 million francs were authorized to meet the costs of the German army of occupation.

⁹ From Dec. 28, 1944, through Nov. 20, 1947, includes 9,447 million francs charged to the State to reimburse the Bank for the gold turned over by it to the National Bank of Belgium on Dec. 22, 1944. During the week ending Nov. 27, 1947, this amount was reduced to 5,039 million francs by a payment from the State to the Bank.

¹⁰ Central Administration of the Reichskreditkassen.

¹¹ Includes a noninterest loan to the Government, which was raised from 10,000 million to 50,000 million francs by law of Mar. 29, 1947.

¹² Publication of Bank's statement suspended from Jan. 22 until Mar. 4, 1948.

NOTE.—For back figures on Bank of Canada and Bank of France, see *Banking and Monetary Statistics*, Tables 166 and 165, pp. 644-645 and pp. 641-643, respectively; for description of statistics, see pp. 562-564 in same publication. For last available report from the Reichsbank (February 1945), see BULLETIN for December 1946, p. 1424.

¹ Government decree of Apr. 24, 1946, provided for the guarantee of all deposits registered in the name of the Central Bank.

² By decree of May 24, 1946, the Central Bank became responsible for all subsidiary money.

³ In accordance with the law of July 28, 1948, the National Bank revised its weekly statement, effective Sept. 16, 1948. The new figures are therefore not comparable with those shown previously. Figures on the old basis through August 1948 are given in the BULLETIN for November 1948 and prior issues. A detailed description comparing the items in the new and the old form is given in the Belgian newspaper "Echo de la Bourse" for Sept. 20, 1948.

⁴ For last available report (January 1943), see BULLETIN for July 1943, p. 697.

⁵ Beginning January 1948, gold valued at 31 pesos per U. S. dollar, while previously it was valued at 4.855 pesos per dollar.

⁶ This figure represents the amount of the bank's subscription to the Fund less the bank's local currency liability to the Fund. Until such time as the Fund engages in operations in this currency, the "net claim" will equal the country's gold contribution.

⁷ Gold not reported separately beginning May 31, 1948.

⁸ Gold not reported separately beginning Dec. 31, 1946.

¹ Revised.

² This figure represents the amount of the bank's subscription to the Fund less the bank's local currency liability to the Fund. Until such time as the Fund engages in operations in this currency, the "net claim" will equal the country's gold contribution.

³ This statement represents combined figures for the Bank of the German States and the eleven Land Central Banks, and was published for the first time as of Sept. 7, 1948.

⁴ Excludes currency issued in the Western sector of Berlin, amounting to 407.4 million German marks on Nov. 30, 1948.

⁵ For last available report (January 1942), see BULLETIN for March 1943, p. 278.

⁶ Includes gold, silver, and foreign exchange forming required reserve (25 per cent) against notes and other demand liabilities.

¹ Revised.

² This figure represents the amount of the bank's subscription to the Fund less the bank's local currency liability to the Fund. Until such time as the Fund engages in operations in this currency, the "net claim" will equal the country's gold contribution.

³ For last available report from the central bank of Rumania (June 1944), see BULLETIN for March 1945, p. 286; and of Yugoslavia (February 1941), see BULLETIN for March 1942, p. 282.

⁴ Gold revalued in June 1946 from approximately 85 to 172 shillings per fine ounce.

⁵ Includes small amount of non-Government bonds.

⁶ Gold revalued on Sept. 9, 1946, from 1,406.58 to 3,150.77 Turkish pounds per fine kilogram.

⁷ Beginning October 1944, a certain amount of gold formerly reported in the bank's account shown separately for account of the Government.

⁸ See BULLETIN for December 1936, p. 1025.

¹ From September 1939 through November 1946, this table represents aggregates of figures reported by individual banks for days, varying from bank to bank, toward the end of the month. After November 1946, figures for all banks are compiled on the third Wednesday of each month, except in June and December, when the statements give end-of-month data.

² Represent six-month loans to the Treasury at 1½ per cent through Oct. 20, 1945, and at ½ per cent thereafter.

NOTE.—For back figures and figures on German commercial banks, see *Banking and Monetary Statistics*, Tables 168–171, pp. 648–655, and for description of statistics see pp. 566–571 in same publication.

¹ Preliminary.

² New series beginning 1947, derived from average yields of 12 bonds on basis of a 2¾ per cent 30-year bond. Annual average for the old series for 1947 (121.5) and figures for years prior to 1947 are derived from average of 5 median yields in a list of 15 issues on basis of a 4 per cent 20-year bond. Source.—Standard and Poor's Corporation; for compilations of back figures on prices of both bonds and common stocks in the United States see *Banking and Monetary Statistics*, Table 130, p. 475, and Table 133, p. 479.

³ This index is based on one 15-year 3 per cent theoretical bond. Yearly averages for 1939 and 1940 are based on monthly averages and thereafter on the capitalized yield as calculated on the 15th of every month.

⁴ This index represents the reciprocals of average yields for 13 issues, including government, provincial, municipal, mortgage, and industrial bonds. The average yield in the base period (January-March 1937) was 3.39 per cent.

⁵ This index is based on 95 common stocks through 1944, and on 100 stocks thereafter.

⁶ In September 1946 this index was revised to include 185 metropolitan issues, 90 issues of colonial France, and 20 issues of French companies abroad. See "Bulletin de la Statistique Générale," September-November 1946, p. 424.

⁷ This is a new index for 37 Netherlands issues (27 industrial, 5 banking, and 5 shipping shares) and represents an unweighted monthly average of daily quotations. The figures are not comparable with data for previous years shown in earlier BULLETINS.

⁸ Average based on figures for 5 months; no data available June-December.

⁹ Average based on figures for 10 months; no data available January-February.

Sources.—See BULLETIN for June 1948, p. 747; March 1947, p. 349; November 1937, p. 1172; July 1937, p. 698; April 1937, p. 373; June 1935, p. 394; and February 1932, p. 121.
